

Dear all,

The *Society for Neuro-Oncology Latin America* is glad to open the applications for the composition of its 2020-2024 Board of Directors.

The elections will take place during the **2018 State of the Art on Neuro-Oncology** conference in São Paulo (dates and venue still to be decided). One party will be elected and will take over during the 2020 SNOLA conference which dates and venue is also to be discussed during the 2018 event. This Board will therefore be entitled of organizing the 2022 and 2024 events, as well as running the society as a whole.

Voters will have the chance of choosing between parties that will be composed by the following roles:

**President**

**Vice-President**

**First Treasurer**

**Second Treasurer**

**Secretary**

It is essential that the President is not a neurosurgeon, following our Bylaws, where different specialties have to be represented alternatively between elections. The other posts have to be filled contemplating at least three of the following specialties in order to be a multidisciplinary team: Neurosurgery, Oncology, Radiotherapy, Pathology, Imaging, or Pediatric Oncology.

As from 2017 the parties may begin their campaign within the different social medias and will also be disclosed and advertised through the SNOLA website.

Applications must be made by 30 November 2016. For more information contact Ms. Twyla Bueno at [twyla.bueno@snola.org](mailto:twyla.bueno@snola.org).

Best wishes,

*Marcos V. C. Maldaun, MD, PhD*

**SNOLA's Founding President**
